Name _____ **Date** _____

End-of-unit 2 test

The End-of-unit tests have been written by the authors. These may not fully reflect the approach of Cambridge Assessment International Education.

1 Draw a line from each word to show which material is a solid, which is a liquid, and which is a gas.

solid
liquid
gas

2 Name another solid, liquid and gas that you might find at home.

Write them in the correct groups.

Materials found at home		
Solid	Liquid	Gas
wood	paint	carbon dioxide

3 Finish these sentences by writing the correct word.

Use these words.

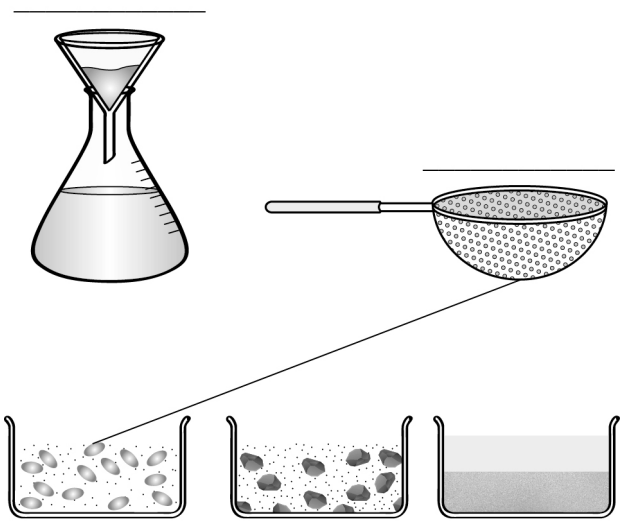
solids	**liquids**	**gases**

a Materials that change shape easily and take the shape of their container are called _____.

b Materials that spread out to fill the space around them are called _____.

c Materials that keep their shape unless they are compressed, stretched, twisted or bent are called _____.

4 Name this equipment. Draw lines to show which equipment you could use to separate the mixtures. The first one has been done for you.



5 a Name a material that dissolves in water. _____

b Name a material that is insoluble in water. _____

c What material is plastic made from? _____

d Metals are made from ores. Where are metal ores found? _____
