4.2 Worksheet: Using apostrophes

In each of the examples below, there is a missing apostrophe. In some cases, there may be more than one. Put the apostrophes in the correct place.

1 The Earths getting so polluted that I sometimes wonder if its gone too far to reverse the trend.

2 Whats the local population going to do about recycling more rubbish?

3 Its time to do more at the local level to improve the environments chances.

4 My cousins jobs are in the forestry department and theyre trying to plant more sustainable trees.

5 All of the trees roots are as wide as 30 metres.

6 Ive always wanted to see the bottom of the ocean and all of its creatures.

7 We have to think about the local populations health versus the local economys development.

8 I didnt know much about recycling until we went on a school trip to see the bottles being processed.
