

Geography

Grade: 6

Unit 3: Climatic Regions of the World

Section A: Multiple Choice Questions (MCQs)

1. Which climatic region is known for heavy summer rains and a dry winter?
 - a) Mediterranean
 - b) Sub-Tropical Monsoon
 - c) Polar
 - d) Continental

2. Which climate is found between tropical rainforests and deserts and is known for wet and dry seasons?
 - a) Tropical Savannah
 - b) Arid
 - c) Temperate
 - d) Continental

3. Which climatic region is typically found near the Equator?
 - a) Polar
 - b) Tropical Rainforest
 - c) Temperate
 - d) Tundra

4. In which climatic region would you expect hot, dry summers and mild, wet winters?
 - a) Arid
 - b) Mediterranean
 - c) Polar
 - d) Tropical Savannah

5. What major factor affects both temperature and rainfall of a place?
 - a) Language
 - b) Longitude
 - c) Latitude
 - d) Time zone

Section B: Fill in the Blanks

Use the words: *Equator, Monsoon, Savannah, Arid, Polar, Latitude, Tropical*

1. The _____ climate is known for a distinct wet and dry season and supports grasslands.
2. The Sub-Tropical _____ climate is influenced by seasonal winds and heavy summer rains.
3. Areas close to the _____ usually have a tropical climate.
4. Places with very little rainfall and extreme temperatures have an _____ climate.
5. The _____ climate is found in regions near the North and South Poles.

Section C: Match the Climatic Region with Its Description

Climatic Region	Description
Tropical Rainforest	a) Hot and dry, very low rainfall
Sub-Tropical Monsoon	b) Warm temperatures, seasonal rainfall with a long dry period
Tropical Savannah	c) Hot, humid, and rainy throughout the year
Arid (Desert)	d) Heavy summer rainfall and dry winters
Temperate	e) Mild temperatures, moderate rainfall
Polar	f) Very cold temperatures and snow, found near poles

Section D: Short Answer Questions

1. What are the main features of the Tropical Savannah climate?
2. Describe the seasonal pattern of the Sub-Tropical Monsoon climate.
3. How does the climate of a tropical rainforest differ from that of a desert?

Section E: Climatic Zones of Pakistan

Multiple Choice Questions

1. Which climatic region of Pakistan receives the highest rainfall?
 - a) Arid
 - b) Semi-arid
 - c) Sub-tropical humid
 - d) Coastal
2. The city of Karachi lies in which climatic zone?
 - a) Sub-tropical humid
 - b) Coastal
 - c) Arid
 - d) Highland
3. Which factor most strongly influences the climate of northern Pakistan?
 - a) Sea breeze
 - b) Monsoon
 - c) Altitude
 - d) Deforestation
4. Which climatic zone is suitable for growing tropical fruits?
 - a) Polar
 - b) Highland
 - c) Coastal
 - d) Sub-tropical humid
5. The Highland climate is mostly found in:
 - a) Balochistan Plateau
 - b) Thar Desert
 - c) Northern mountainous areas
 - d) Indus Delta

Fill in the Blanks

Use the words: *Karachi, Highland, Coastal, Semi-arid, Monsoon*

1. The _____ climate zone is affected by elevation and snowfall.
2. The _____ zone is found along the Arabian Sea.
3. The _____ winds bring rainfall to sub-tropical humid areas.

4. _____ lies in the Coastal zone.
5. The _____ zone covers central Punjab and parts of Balochistan.

Match the Zone to Its Description

Climatic Zone of Pakistan	Description
Sub-tropical Humid	a) Found in northern mountain areas
Highland	b) Includes Lahore and Gujranwala
Semi-arid	c) Includes Quetta and interior Sindh
Arid	d) Covers most of Balochistan and Thar Desert
Coastal	e) Found near the Arabian Sea, includes Karachi

Short Answer Questions

1. Name the major climatic zones of Pakistan.
2. Describe two features of the Highland climate.
3. Why is the coastal climate different from inland desert areas?

Section F: Coastal Areas of Pakistan

Multiple Choice Questions

1. Which of the following is a coastal city in Pakistan?
 - a) Lahore
 - b) Peshawar
 - c) Karachi
 - d) Quetta
2. Which major seaport handles most of Pakistan's international trade?
 - a) Port Qasim
 - b) Gwadar Port
 - c) Karachi Port
 - d) Pasni Port

3. Where are mangrove forests mostly found?
 - a) Along the Indus River
 - b) In Thar Desert
 - c) Near Karachi
 - d) In northern areas

4. Which port is located in Balochistan and is a major trade hub?
 - a) Karachi Port
 - b) Gwadar Port
 - c) Port Qasim
 - d) Keamari Port

5. What role do mangrove forests play?
 - a) Grow rice
 - b) Provide shade
 - c) Protect shores and marine life
 - d) Attract rain

Fill in the Blanks

Use: *Karachi, Gwadar, Mangroves, Arabian Sea, Port Qasim*

1. _____ is a deep-sea port in Balochistan.
2. The coast lies along the _____.
3. _____ forests grow in coastal mudflats.
4. _____ is Pakistan's busiest port.
5. _____ is near Karachi and supports industry.

Match the Feature to Its Description

Coastal Feature	Location / Description
Karachi Port	a) Sindh's main port
Gwadar Port	b) Balochistan's deep port
Port Qasim	c) Near Karachi, industrial
Mangrove Forests	d) Found along Sindh coast
Arabian Sea	e) Borders south Pakistan

Short Answer Questions

1. Name Pakistan's three major sea ports and their locations.
2. What are mangrove forests and why are they important?
3. Why are coastal areas important for trade and the environment?

Section G: Arid Areas of Pakistan

Multiple Choice Questions

1. Which of the following is an arid region?
 - a) Swat
 - b) Thar Desert
 - c) Murree
 - d) Indus Delta
2. Which province has the most arid areas?
 - a) Sindh
 - b) Punjab
 - c) Balochistan
 - d) KPK

3. What is the biggest challenge in arid regions?

- a) Floods
- b) Cold
- c) Lack of water
- d) Pollution

Fill in the Blanks

Use: *Balochistan, Thar, Water, Camels, Cholistan*

1. The _____ Desert is in southeast Pakistan.
2. The _____ Desert is in southern Punjab.
3. _____ is a province with arid zones.
4. People in arid areas rely on _____ sources.
5. _____ are used for transport in deserts.

Short Answer Questions

1. Describe two features of arid climates.
2. Name two deserts and their provinces.
3. How do people adapt to arid regions?

Section H: Lifestyle and Climate in Pakistan’s Climatic Regions

Match the Region to Its Lifestyle Feature

Climatic Region	Lifestyle or Adaptation
Arid (Desert)	a) Light clothes, rely on wells
Coastal	b) Fishing and port jobs
Highland	c) Stone/wood houses for warmth
Sub-tropical Humid	d) Farming with good rainfall
Semi-arid	e) Mixed farming with canal systems

Fill in the Blanks

Use: *Nomads, Fishing, Cool, Monsoon, Rainfall*

1. In highlands, people wear warm clothes to stay _____.
2. Coastal communities depend on _____.
3. Sub-tropical humid zones receive heavy _____.
4. Nomadic people in deserts move for food and _____.
5. Lifestyle is shaped by temperature and _____.

Short Answer Questions

1. How does coastal life differ from desert life?
2. Give two adaptations of people in highlands.
3. Why is farming easier in sub-tropical humid zone?
