Instructions

This worksheet is based on the paper pattern and covers two topics: Construction of Masjid-e-Nabwi and Charter of Madinah. It helps you revise what you have learned and check how well you understand it. Read these guidelines before you begin.

For all questions

- Read each question carefully at least two times before you answer.
- Attempt every question. Never leave a blank space.
- Write neatly and in your own words, using the terms from your textbook.
- When you finish, check your answers once more.

1. Fill in the blanks (1 mark each)

- Read the whole sentence first, then think about which word fits.
- Write only one word in each blank. The missing word is usually a name, place, month or number from the lesson.
- Read the sentence again with your answer in it. It should make sense and be correct.

2. True or False (1 mark for true and 2 for false)

- Look for names, places, facts, and figures in the statement. This is usually what you are being tested on.
- Be careful with words like “only”, “all”, “always”, “never,” and “many”. Changing one word can make a true statement false.
- The true statement carries 1 mark, while the false statement carries 2. In the true statement, mention true; in the false one, mention false and the correct statement.

3. Question Answers (3 marks and 4 marks)

- Read the question two times, then look at the marks. Marks tell you how much to write. A 3-mark answer needs five clear points and 4-mark answer requires 7 sentences.
- Check whether the question asks for one thing or two. Questions 1 ask for two things, so answer both parts. Do not forget one of them.
- Look at the question verb. It tells you what to do:
    - **What** means to give the meaning or the fact.
    - **Explain** means give the reason and detail.
    - **Write** means to list the points asked for.
    - **Why** means to give the reason.
    - **How** means to give the process
