.....

.....

.....

.....

.....

..... [4]

- (d)** Rivers are an important resource for human settlement and economic activity, but flooding is an increasing problem which can hinder development. Read the following two views about ways to manage flooding in Pakistan:

A

More flood management schemes are needed along rivers to prevent floods.

B

Flooding brings
benefits so rivers
should be allowed to
flood naturally.

Which view do you agree with more? Give reasons to support your answer and refer to examples you have studied. You should consider View A **and** View B in your answer.
